

The Division on Aging supports older adults through various programs and services. We offer information, guidance, and referrals to connect them with resources. Our In-Home Aide program provides personalized assistance to seniors in their homes, promoting independence.

The Senior Volunteer Program provides opportunities for seniors 55 and older to engage in activities while giving back to their community. The Elderly Nutrition Program offers nutritious meals for homebound seniors and fosters social connections at our senior sites. The Family Caregiver support program offers caregivers education, respite care, and assistance. The Grandparents Raising Grandchildren program provides guidance, resources, and a supportive community. Our CAP/DA program helps disabled adults access community-based care alternatives. Our Medicare Counseling service provides personalized guidance on navigating the intricacies of Medicare and making informed decisions. For more information about our programs, contact us at 910-893-7578 or visit www.harnett.org/aging.

The Health Department strives to eliminate barriers that prevent people from receiving care. Many of our services are based on a sliding fee scale (based on income).

The Health Department accepts Medicaid, and Private insurances.

Our mission is to prevent illness, diseases, and injuries, promote healthy lifestyles, and keep the environment clean, healthy and safe.

Adult Health: The Adult Health Division offers a variety of services for services for adults. Services include adult immunizations, tuberculosis (TB) skin testing, pregnancy testing, and HIV counseling/testing and communicable disease management. If you have questions regarding the Adult Health services or would like to make an appointment, please call 910-893-7550.

Child Health: The Child Health Division provides healthcare for children through age of 20. Services provided include immunizations, sick care, and well child checkups including physicals for school entry, daycare and head start programs. A provider is available to provide care for sick children. Immunizations for uninsured children may be given at no charge. Appointments are required for all clinical checks and exams. To make an appointment please call 910-893-7550.

Immunizations help protect children from illnesses.

Family Planning: Reproductive health visits, counseling and birth control options for people of childbearing age at reduced or no cost as fees are based on income. All visits are confidential. Fees are based on income. Medicaid and private insurance are accepted. To make an appointment please call 910-893-7550.

Maternal Health/Prenatal Care:

Regular prenatal care (care during pregnancy) is vital to your health and the health of your baby. The Health Department provides care for moms-to-be through the prenatal clinic to make an appointment please call 910-893-7550.

Care Management for High-Risk

Pregnancies: Prioritizes the well-being of mothers and babies. Care manager nurses and social workers provide individualized support and guidance throughout pregnancy. We connect pregnant women with resources, facilitate access to medical care, and provide guidance on nutrition and essential services. Our program aims to promote overall wellness and ensure a safe and healthy pregnancy through coordination with prenatal providers. For more information, contact us at 910-893-7550.

Care Management for At-Risk

Children: Provides essential support to Medicaid eligible children and their families from birth up to five years of age. Our program is specifically designed to address the unique needs of at-risk children and ensure they receive comprehensive care and support during their critical early years. For more information about Care Management for At-Risk Children contact 910-893-7550.

Sexually Transmitted Infections

Clinics: Examination, and treatment is available to all persons with suspected sexually transmitted infection, regardless of income or insurance. Education and prevention services are provided to individuals and the community. To make an appointment please call 910-893-7550.

Health Education: Educating the public about health issues is a goal of public health. Public health education serves to reinforce health promotion messages within the community. Health Educators work to mobilize community partnerships and to identify and address community health problems. For more information, please call 910-893-7550.

Women Infants and Children

(WIC) The WIC program provides families with nutritious supplemental foods, nutritional education and counseling and breastfeeding support for eligible pregnant, breastfeeding and post-partum women, infants, and children under the age of five. To make an appointment please call 910-893-7570.

Eat healthy Foods
